

Portfolio Tracking API

As mentioned, assumed there is only single user who can have single portfolio. So, users are not linked with trades in this demo.

Tech stack used – Django along with PostgreSQL for database.

Demo hosted on Heroku at –

<https://smcportfolio.herokuapp.com>

GitHub link –

<https://github.com/vineet23/smallcase>

API routes can be found in portfolio_tracking/urls.py or simply use API documentation using link –
